SKILLS

AI & ML: Python, PyTorch, TensorFlow, Scikit-learn, Deep Learning, LLMs, Generative AI, LangChain, LangGraph, CrewAI, RAG Pipelines, Vector Databases (Pinecone, ChromaDB), Multi-Agent Systems, NLP, Computer Vision, Prompt Engineering, Agentic AI

MLOps & Model Deployment: Docker, Kubernetes, MLflow, Weights & Biases, GitHub Actions, CI/CD, Model Monitoring, Drift Detection, FastAPI, REST API Development, GCP, AWS

Data Engineering: Feature Engineering, Data Processing, Pandas, NumPy, PostgreSQL, MongoDB, Firebase, Redis, Evaluation Pipelines, Structured & Unstructured Data

Backend / Frontend: Node.js, Django, FastAPI, React, Next.js, Python, Streamlit, REST APIs, Tailwind CSS, HTML, CSS, TypeScript, JavaScript

Integration & Automation: MuleSoft (Anypoint), RAML, API Lifecycle, Salesforce (Apex, LWC, Flows, SOQL), RPA, MCP, n8n, Zapier, Webhooks, NetSuite, Sitetracker, Agentforce

EXPERIENCE

Full stack Engineer(Junior Consultant) — SpringFive Consultancy, Bengaluru *Jul 2025 – Present*

- Built real-time enterprise API integrations using MuleSoft (Anypoint) connecting Salesforce, NetSuite & Azur(enterprise ERP); authored RAML specs and managed full API lifecycle workflows end-to-end to production via CI/CD pipelines
- Developed MCP agent-driven integration flows for multi-step enterprise automation; shipped RPA & IDP workflows

Associate Engineer Intern — SpringFive Consultancy, Bengaluru *Mar 2025 – Jun 2025*

- Configured Salesforce end-to-end (Apex, Flows, LWC, SOQL) and built deployment pipelines using SFDX + GitHub Actions for enterprise telecom clients; automated milestone tracking with Sitetracker
- Integrated MuleSoft with Salesforce, NetSuite & IDP/RPA systems; handled sync, transformation & error handling.

AI Intern — National Institute of Technology, Tiruchirappalli *Jun 2023 – Sept 2023*

- Built 3 ML & CV models for aquaponics automation, achieving 92% detection accuracy across 10000+ data samples"
- Developed real-time prediction dashboard with Streamlit, reducing manual monitoring time by ~40%

PROJECTS

Tesseract — Autonomous AI Software Architect ↗ GitHub

- 7-agent LangGraph system (Planner→Architect→Coder→Reviewer→Improver→Tester→Refactorer); AST + rule-based code validation; generates production-ready modules with iterative feedback. · **Stack:** Python, LangGraph, LLaMA-3

Multi-Agent Meeting Notes Generator ↗ GitHub

- 4-agent pipeline: Whisper STT → NoiseCleaner → Summarizer → Action-Item Extractor → Reviewer with conditional retry routing. · **Stack:** LangGraph, LLaMA-3 (Ollama), Whisper, Python

Roo — Smart Budget Tracker ↗ GitHub

- Full-stack app with Virtual Jars, real-time analytics, bill splitting & AI financial insights. · **Stack:** React, Django, MongoDB, TensorFlow

SatisfAI — Customer Satisfaction Analyzer ↗ GitHub

- Analyzes call recordings using audio diarization, speaker identification, speech-to-text & NLP to extract customer satisfaction insights. · **Stack:** Python, IBM Watson, Django, Jupyter Notebook, NLP

Terravia — AI Bus Ticketing & Route Optimization ↗ GitHub

- Dynamic rerouting with LSTM & RL demand prediction · **Stack:** Android Studio, Flask, Firebase

Accenture Data Analytics Simulation ↗ GitHub ↗ Cert

- Data cleaning, content modelling & stakeholder storytelling · **Stack:** Python, Pandas, Power BI, Tableau, Excel

Personal Portfolio Website ↗ GitHub

- Animated developer portfolio with orbital project viewer, parallax hero, interactive experience cards, tech orbit system & character parade · **Stack:** HTML, CSS, Vanilla JS, Canvas API, SVG Animation

EDUCATION

B.Tech – Artificial Intelligence & Data Science · CGPA: 8.3 *2021 – 2025*
Anna University, Saranathan College of Engineering, Tiruchirappalli

Micro-Credit Program in Computer Science *2024 – 2025*
IIT Guwahati, NSDC – Masai (Virtual)

CERTIFICATIONS & ACHIEVEMENTS

- **Salesforce Agentforce Developer Certification** — Salesforce, 2025
- **ML Specialization — Stanford / deeplearning.AI (2024)** - Prof. Andrew Ng
- **Paper Presentation — SRM Madurai (2024)** — "Optimizing Heart Disease Prediction" using Classical & Quantum ML [GitHub]
- **AI Awareness Workshop — Mahatma Gandhi School, Trichy (2024)** — Conducted an AI/ML/GenAI session for 9th-grade students
